### **ArchLIGHT Exhibitor FAQ**

1. Not an Exhibitor yet? How do I reserve a booth?

There are two booth options for ArchLIGHT Summit exhibitors: 10x10 (3m x 3m, limit one per brand) and 6x10 (2m x 3m, limit two per brand). Until space is no longer available, booths may be reserved here: <a href="https://archlightsummit.com/exhibit/">https://archlightsummit.com/exhibit/</a>

2. When and how will booth numbers be assigned?

As much as possible, booth locations will be assigned based on local agency representation. Official Agency Partners will have the ability to set booth locations for specific brands within their area on the show floor. Final booth locations should be assigned by mid-July.

3. When can I move into our booth?

Move-in begins, Monday, September 18th, 2023, from 8:00am - 6:00pm

4. Will late access to the exhibit hall be allowed?

Move-in officially ends at 6pm and any late access will need to be handled on a case-by-case basis and is not guaranteed. Please contact show management if there might be a need for late move-in.

5. Does ArchLIGHT Summit have a "clean floor policy"? When do my crates and skids need to be clear from the show floor?

Yes, all empties must be out of booths and ready for GES pick-up by the official move-in end time. If this policy is not met, exhibitors will be charged a \$200.00 fee. Any empties placed out in the aisle the morning of the show open or found hidden for storage behind the show will be fined \$500.00.

6. Empty labels can be picked up from the GES Service Center. GES will collect the labeled items and store them until the show ends.

All empties will be delivered to booths at 3pm when the show closes. Please make sure you allow 2 – 3 hours in your breakdown plans for empty delivery. While it does not always take this long, we cannot guarantee a time limit and do not want to interfere with travel plans.

#### NOTE:

#### BOOTH PACKAGES MUST BE PRE-ORDERED VIA THE GES ORDERING WEBSITE BY September 1st, 2023.

You must login to the GES website to opt in or out of the package. If nothing is submitted your package will be automatically defaulted and any changes at show site will incur fees.

The 8' walls are built out of a modular steel framing system with white panel inserts. The walls cannot be pierced by anything (no hammering or drilling). If you wish to hang things from the wall, we suggest "s" hooks over the steel frame or command strips that can be peeled off without damaging the steel or panel.

The below rendering provides an example of what a standard 3mx3m (each panel is 1m) inline booth looks like.

### 13. Can I have a hanging sign over my booth?

You can hang signage inside your booth, but it cannot exceed an 8' height limit. Again, note that any hanging of signage etc. in the booth must not damage booth or equipment surfaces.

## 14. How do I know if my booth meets all regulations?

All exhibitor displays must remain within their leased space parameters. Nothing can exceed 8' in height and nothing can be displayed in the aisle ways to disrupt the flow of traffic.

An exhibitor can opt out of the whole complimentary booth package or just items within it on the GES website. Note you must submit that you do or do not want items to receive or not receive them. If you are bringing a custom booth, please select that option and alert show management of any special needs to accommodate this set. If a booth shares back or side walls with neighboring booths, you must use the shell walls of the booth and any custom pieces must fit within the metered space.

If you wish to rent different carpet, additional or specialty furniture, or add any additional electrical you can do this through the GES website.

# 15. What is the power source?

Each booth space comes with a 10amp or 4 quad outlets. If you need additional power, please rent through GES. Also, if you require a special electrical layout in your booth contact GES with a diagram of this.

## 16. Do you require an electrician or labor to install?

No, this is a non-union facility and exhibitors can install items themselves; however, if you wish to hire GES services or bring in an Exhibitor Approved Contractor (paperwork and fees required) you can arrange this through the GES ordering site.
